Why isn't this an acceptable copy of your transcript?

- 1) It's not your official transcript! Even though you can log in and view your grades, this wasn't a transcript officially issued to you by your University.
- 2) It is missing Degree Name and Conferral, Date of Degree Conferral, Grading Scale
- 3) We have no way of verifying that this officially came from your University! We created this in Word, so how are we to know that you didn't do the same?!
